	<p>Whyteleafe Football Club (popularly referred to as The Leafe and <i>'the Pride of East Surrey'</i>) has been an integral part of the neighbourhood since 1946.</p> <p>Football in the community, caters for sport for all ages: with youth training and junior leagues. The benefits to physical and mental health of socialising through sport are well recognised, yet pressure remains to 'release' sports fields and facilities for other development.</p> <p>The football ground has a role too as part of a green corridor and whilst the site currently has Green Belt status, Local Green Space status emphasises its role as a valued community asset and safeguards that into the future.</p> <p>Further information on the Club and ground: Whyteleafe Football Club was formed in 1946 and played on the Whyteleafe Recreation Ground until 1950. It then shared usage of Kenley Primary School playing fields in New Barn Lane.</p> <p>When the club joined a League in 1958 it needed sole use of a pitch and moved to its present site in Church Road. The land taken had been used as a dump for many years and the Club laid 15,000 turves to make the pitch ready for the 1959/60 playing season. They also converted Mr Balch's ex-milking parlour into a clubhouse and changing rooms.</p> <p>By the end of the 1960s Whyteleafe were Surrey Senior League Champions. A floodlit training area and stand were introduced in the 1970s; main pitch floodlights in the 1980s; the clubhouse was extended and new dressing rooms provided.</p> <p>Source: A History of Whyteleafe by Peter Skuse. 13	Landowner consultation and property management

13.1	The questions in section 1 seek to establish landownership and whether there is landowner support for LGS designation. The NPPG advises that the qualifying body (in the case of neighbourhood plan making) should contact landowners at an early stage about proposals to designate any part of their land as Local Green Space. (Paragraph: 019 Reference ID: 37-019-20140306, Revision date: 06 03 2014). (i) Please confirm when this proposed LGS was first identified and; (ii) When and how the landowners were notified

	No
13.4	Who will manage the Local Green Space after designation? <i>Please provide details.</i>
	Site owner

Advice Notes:

Not every potential site will meet every criterion, however all potential Local Green Space sites must meet the following criteria in the checklist:

- 2.1 Not have an extant planning permission within which the Local Green Space could not be accommodated;
- 2.2 Not allocated for development in the relevant Neighbourhood Plan, unless it can be shown that the Local Plan housing allocation is not strategic and can be re-located somewhere else in the neighbourhood plan area; or alternatively that the Local Green Space could be incorporated within the site as part of the allocated development;
- 3.2 “local in character”;
- 3.3 Not an “extensive tract of land”;
- 5 in “proximity to the community it serves”; and
- 6 “demonstrably special to the local community”;

All potential LGS sites must meet at least one of the following criteria in the Checklist;

- 7 “particular local significance ... because of its beauty”;
- 8 “particular local significance ... because of its historic significance”;
- 9 “particular local significance ... because of its recreational value”;
- 10 “particular local significance ... because of its tranquillity”;
- 11 “particular local significance ... because of its wildlife”; and
- 12 “particular local significance ... for any other reason”.

The NPPG places emphasis on early consultation with landowners and consideration of property management if land is to be designated as LGS. The questions in 13 seek to establish the extent to which these matters have been considered and whether these might give rise to additional obligations and whether they might place an unacceptable burden on the landowner. If so, would a partnership agreement or other mitigation measures be appropriate?
